Eric—thanks for your call.

EPA cannot comment on ongoing personnel matters. EPA's actions in response to recent workplace issues have been deliberate and have focused on ensuring a safe work environment for our employees. Our brief consultation with Dr. Nicoletti on this matter, a resource who regularly provides our office with training and expertise on workplace issues, reflects our commitment to securing a safe workplace.

Hey Rich- think you'll be able to get something today before we publish? Thanks for looking into it.

Hi Richard,

Bit of an odd request for you. I was forwarded a strange email from region 8 and wanted to follow up with you to see if you could offer any insight. I will copy the email below and put my questions here. Have there been any developments in finding the culprit(s)? What other behavior has occurred? Why did the EPA need to hire an outside consultant for information on this situation -- it seems pretty clear the offense was not a good thing. What were the terms of that consultation? Please pass along any other comments you have on the issue.

Thanks for your help,

Eric

Here is the email to which I am referring:

MEMORANDUM

SUBJECT: Inappropriate Behavior – Your Assistance Requested

FROM: Howard M. Cantor//signed//
Deputy Regional Administrator

TO: All Region 8 Employees, SEEs and Contractors

As some of you may be aware, there have been several incidents of inappropriate behavior in the building. A couple of examples include an individual clogging the toilets with large amounts of paper towels and an individual placing feces in the hallway outside of one the restrooms.

Management consulted with Dr. John Nicoletti, a national expert on preventing workplace violence, about these incidents. He advised us that this is very dangerous behavior as it includes property destruction and a disregard for the health and safety of others. He warned us that these individuals will probably escalate their behavior. Management is taking this situation very seriously and will take whatever actions are necessary to identify and prosecute these individuals. You can assist us by letting us know if you have any information about a specific incident.

Dr. Nicoletti recently provided the Region with refresher training on preventing workplace violence. For those of you who took his recent class or one of his classes in past years, you may understand why the agency is very concerned about this type of behavior. Behavior that includes the destruction of property and disregard for human health is classified by Dr. Nicoletti as attack-related behavior.

Please inform your supervisor, a management official, or a member of the Regional Crisis Management and Advisory Team (RCMAT) if you observe or become aware of inappropriate behavior in the workplace. The RCMAT consists of Bridget Dunlap, Human Resources Officer; Bill Daniels, Infrastructure Program Manager; Grace Doris, Regional Security Officer; and Michelle Parker, Labor and Employee Relations Officer. Management takes its responsibility to provide all employees with a safe and healthy work environment seriously. We request your assistance in notifying us so that we can put a stop to this type of behavior before it escalates.
